

# Living in Your Sacred Center

**Discover what  
Dorothy did,  
We always have  
the power to  
return to our  
sacred center**

Join a circle of women as the Medicine Wheel becomes our path to wholeness.

Each season on the wheel connects us to cycles of life. Spring is a time to sow seeds and plant dreams. Summer is for blooming and tending new growth. In Fall, we honor the harvest of our work. Winter calls us to simplify and seek silence. Ancient teachings and nature's lessons return us to our deep desire to welcome all of who we are.

On August 24th we'll ask the question; *What is longing to grow and manifest through me?*

Release unexpressed energy

Remember your heart's desires

Reenter your life with renewed vitality
